e3 Features

1. Sight Delights

Illuminating "mood mode™" lighting effects change color, adding movement and energy, attracting tanners' attention and providing ambiance to your salon. Speed and color rotation can be adjusted to fit your salon's style, from fast pulse to slow, relaxing transitions.

2. Space Saving

Smaller footprint, smarter designs - it's simple...higher output beds that require less space. Compact dimensions provide space savings and cost savings for salon owners, plus an opportunity to upgrade tanning power without redesigning your salon.

3. Comfort Counts

Body-contour-comfort acrylics created from exclusive pressure point mapping studies provide a luxurious tanning experience. Varying designs offer more upgrade opportunities by changing pressure points on each bed level.

4. Touch Talks

Handle mounted control panel is easy-to-use, easy-to-reach and conveniently located in front of tanner for easy visibility. "Keypad Control Center" includes timer display LED that provides clear visual of bed functions and optional voice prompts deliver an owner-friendly and consumer-friendly experience. Professional audio tour highlights features for a complete, consistent message and minimal staff training.

5. Sound Surrounds

Fully integrated "Exciter Audio System" transforms entire tanning experience with crisp, clean sound while the unique e3 technology design reduces noise pollution within salon. Compatible with MP3, DMX or other salon sound system.

6. Service Smart

"Total Access Panel," hinged acrylics, and "easy access" facial tanner cassette allow for quick, effortless cleaning and preventative maintenance. 48 Month Gold Medal warranty provides assurance.

WARNINGS RELATED TO TANNING

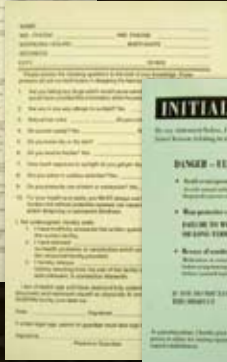

DANGER - ULTRAVIOLET

Excessive exposure to UV radiation causes skin aging and skin cancer. Use with caution. Read and follow instructions. Use only as directed. Do not use on children or pregnant women. Use only on tanned skin.

FAILURE TO USE PROTECTIVE EYEWEAR MAY RESULT IN SEVERE BURN AND LONG-TERM INJURY TO THE EYES.

Medications or cosmetics may increase your risk of skin cancer. Consult a physician before using tanning products. Some medications, such as antibiotics, may be sensitive to sunlight.

IF YOU DO NOT TAN IN PROPERLY, YOU ARE UNLIKELY TO TAN FROM THIS PRODUCT.

Personal Finance Information

Easy Monthly Payments! If you have a Visa, MasterCard, Discover or American Express credit card, you may qualify for up to \$7,500 of buying power. Payments are as low as 2% of the outstanding balance. Find out how fast and easy it is by calling your Master Tanning, Inc. representative today. Please Note: Lamps and items purchased for resale do not qualify for credit.

Service

Since Master Tanning, Inc. has been distributing tanning equipment nationwide for over 21 years, our Technical Service staff and knowledge is second to none. Now, there are three ways to get the information you need about your tanning equipment.

- The extensive online support allows you to see step-by-step troubleshooting, part numbers, manuals, wiring schematics and more. Visit www.tanning-bed-parts.com
- You can also contact the Technical Support Team at 1.800.552.4446.
- In the unlikely event that you may need to have your tanning equipment serviced, the Master Tanning, Inc. Service Net work provides you with the most professional, quality service technicians in the country.

Important Note

Important Power Requirements For Tanning Equipment:

Today's 220-volt equipment is extremely sensitive! Since electrical voltages vary from place to place, the output and life of tanning lamps can be affected. For equipment to operate properly and to make it last longer, we may suggest installation of a buck booster transformer to adjust the electrical voltage. Please see the electrical requirements for your equipment on the earlier pages located at the top of the feature list. If you have any questions, please don't hesitate to call your sales representative.

DANGER: Equipment advertised herein emit ultraviolet radiation. Follow usage instructions listed on the device. Avoid overexposure. As with natural sunlight, overexposure can cause eye and skin injury and allergic reactions. Repeated exposure may cause premature aging of the skin and skin cancer. **WEAR PROTECTIVE EYEWEAR; FAILURE TO DO SO MAY RESULT IN SEVERE BURNS OR LONG TERM INJURY TO EYES.** Medications or cosmetics may increase your sensitivity to ultraviolet radiation. Consult physician before using any tanning equipment if you are using any medications or have a history of skin problems or you are or believe yourself to be especially sensitive to sunlight. If you do not tan in the sun, you are unlikely to tan from the use of tanning equipment. Before use, review the recommended exposure position, exposure schedule and certified lamp type(s) described on the labeling of each device. Read the warning label and instructions on any tanning equipment advertised herein that you purchase.

Introducing...

Sun for life

POWER WINDOW

Be The First To Experience Wolff's Newest Tanning Innovation!

During regular outdoor activities, the face and neck area typically receive more sunshine than any other part of the body. An individual's tan increases the skin's resistance to subsequent exposure of UV rays found in sunlight and tanning beds, therefore requiring more UV power in this area.

The Solution: The newly developed Power Window® tanning lamp from Wolff® System! This specially designed, innovative tanning lamp provides increases tanning power through the lamp "window" which is featured in the facial area of the tanning bed ensuring the best possible full body tan.

This exclusive, state of the art tanning lamp upgrade is brought to you by the nation's #1 manufacturer of personal tanning and skin care equipment, Master Tanning, Inc.

Wolff is the founder of the indoor tanning industry and most requested name in tanning for 30 years.

Exclusive Technology from Wolff® System
